"Surprise your beloved ones to spend 3hrs on Robotics or Renewable Energy"

2015
HAPPY NEW YEAR
The Little Engineer

UPCOMING Workshops

Together with the AUB Alumni, The little Engineer will deliver a workshop at AUB for 100 students on Saturday Dec. 20, 2014. We will cover this event in January issue with kids and parents testimonials.

Beirut Modern School (BMS), 128 students from different grades visited our Msaitbeh center on Dec 17, 18, 19 to explore the world of robotics. Check photos on facebook / fan page.

UPCOMING events

In collaboration with Sonbola, which is a lifelong learning initiative that adopts an innovative approach to engage Syrian professionals in providing impactful & quality-based learning to Syrian refugees on Dec. 27, 2014 to instill in Lebanon, The Little Engineer will deliver a Robotic workshop for Syrian refugees and technology. We believe them the passion for science and TLE activities. We believe full day exposing 60 learners to TLE activities. We believe in equal rights and equal opportunities.

We will be closing this year on Dec.30, with Finger Print Kindergarten, engaging 20 kids in simple machines activities. We are a K-12 institute that can engage all age groups. We can intensify or simplify our message to fully engage young minds according to their age!

For the academic year 2014-2015
The Little Engineer will be delivering its
courses through clubs in some schools.

TLE

The Lifetime Education

TLE® was founded with a mission & a vision towards the upcoming generation of pioneers. It was an individual initiative, TLE focused on raising talents among our students, improving their scientific skills & empowering young minds. Our platform was created based on the support of my own kids and family who encouraged me to go on with this initiative & grow it in order to expand the benefits of our offering in may areas in Lebanon & beyond.

Testimonials

“ Yesterday was a big hit & a great success by all means we are getting great feedback & all parents were thrilled to see their kids enjoying & learning something new and different. On behalf of LAU Alumni South Lebanon Chapter, I would like to extend my regards to every member of your team for a job well done. ”

Majdi H. Awad
President of LAU Alumni South Lebanon Chapter

Replicating the same initiative in Qatar with a great success
Join us in Al Waab St. opposite Villagio.

Birthdays in our centers

Who said you should only entertain during birthday, we entertain & educate children while exposing them to technology. We give them the satisfaction of completing & competing.

Strategic Partnership with

Maroc-Aviation :

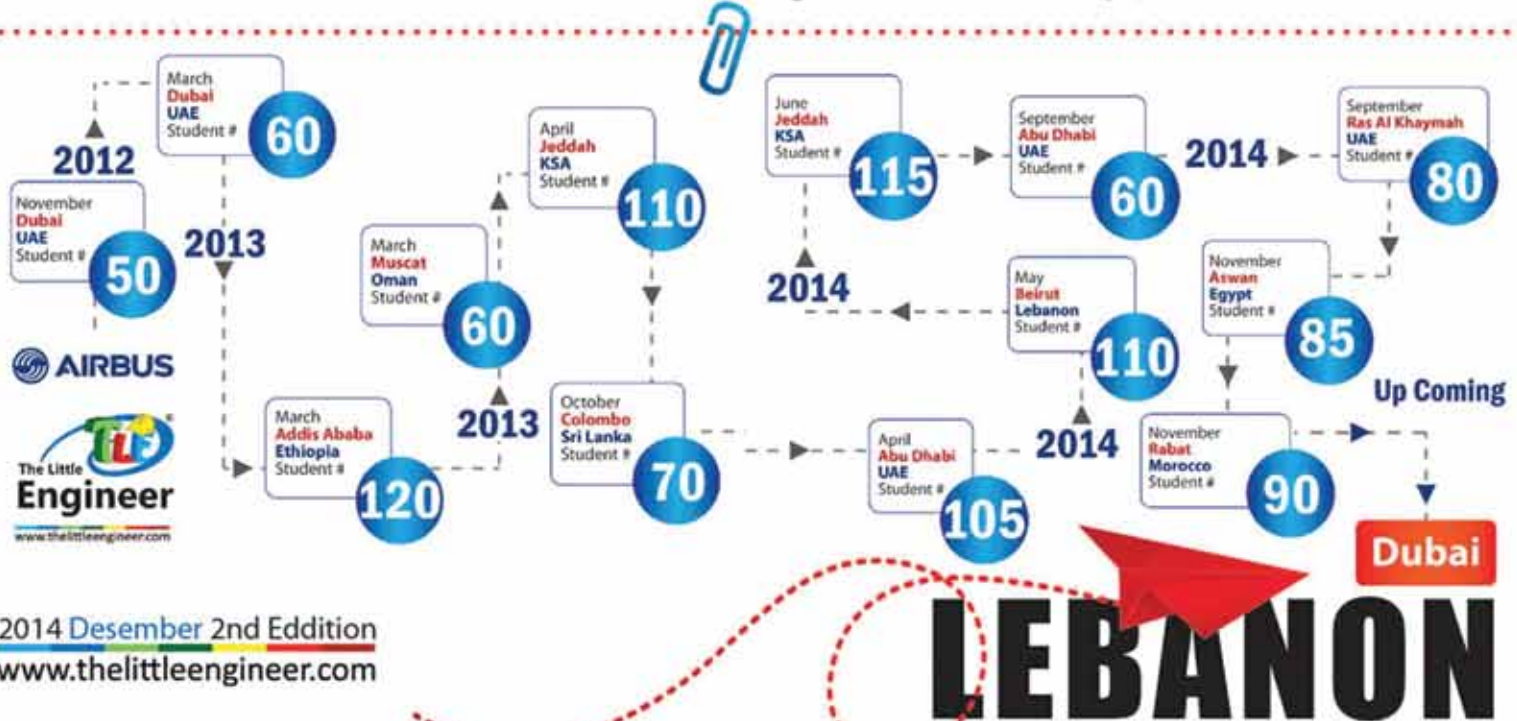

lancement à Rabat d'un programme pour les jeunes talents Au Maroc:

Le ministère marocain de l'Équipement, du Transport et de la Logistique, Airbus et l'Institut Africain de Sécurité Aérienne (AFTIS) collaborent dans le cadre d'un programme visant à promouvoir le développement des jeunes talents au Maroc. Ce programme, lancé à l'occasion du Forum de l'Aviation Africaine organisé jeudi à Rabat, comprend deux initiatives, "The Little Engineer" et "The Future by Airbus", précise Airbus, qui souligne qu'"avec la croissance exponentielle de l'industrie aéronautique, il y aurait une importante pénurie de talents dans le secteur". Ainsi, l'initiative "The Little Engineer", à laquelle ont pris part quelque 50 jeunes élèves âgés de 10 à 12 ans et provenant des écoles publiques et privées de Rabat est développée dans le but de susciter un engouement pour la science et les technologies dès un jeune âge.

في أسوان:

على هامش زيارته إلى أسوان. حضر الطيار حسام كمال وزير الطيران المدني واللواء مصطفى يسرى محافظ أسوان ختام ورش العمل لطلبة من مختلف المدارس في أسوان بعنوان "المهندس الصغير". والتي أقامتها شركة إيرباص بالتعاون مع وزارة الطيران المدني المصري. والتي تهدف بالأساس إلى تعريف الطلاب بعالم الإنسان الآلي وتشجيعهم على استخدام العلم والتكنولوجيا والهندسة والرياضيات بطريقة جديدة ومثيرة وتساهم في تفجير طاقاتهم الإبداعية. وقد استضافت محافظة أسوان ورش العمل على مدار ثلاثة أيام. وأضاف "نحن مؤمنون بأن العنصر البشري هو الداعم الرئيسي لهذا النمو في المستقبل. ونحن نهدف إلى تشجيع النشء والشباب وحثهم على تنمية مهاراتهم العلمية والإبداعية. ونأمل أن يشجعهم ذلك على مواصلة حياتهم المهنية في صناعة الطيران". وأوضح حسام كمال "أن الاستثمار في تنمية رأس المال البشري يؤدي إلى بناء دولة ناجحة ولأن أسوان هي قطعة عزيزة في قلب كل مصري. كما أنها واحدة من أهم مقاصد الجذب السياحي في مصر. ورغبة منا في إعطاء الفرصة لأطفال الصعيد للتعرف على تجارب جديدة ومثيرة تلهم أفكارهم وتنمي قدراتهم. كان إصرارنا على نقل ورش العمل هذه إلى أسوان. أقصى محافظة في صعيد مصر. لتؤكد وزارة الطيران على القيام بدورها القومي نحو الشباب والنشء المصري في الصعيد". وقد شكر اللواء مصطفى يسرى محافظ أسوان ووزارة الطيران وشركة إيرباص على هذه المبادرة الكريمة.

THE QATAR

“We wish you a happy Qatar National Day”
Our team sends you a wonderful Greeting for this season.

OFFER OF THE MONTH

December and January

- Relax and enjoy during this school break visit our center and learn more about robotics.
- We are offering a **20%** on our courses in addition to 50% discount on the school visit fees for 250 students.

WE DID!

The Little Engineer Qatar have hosted more than 100 students. Students from Oxford International School, Al Mahd International School, Al Maha academy, Moza Bint Mohamad Preparatory school for girls, and Newton school. We are preparing our students for First Lego League which will be held in February. Moreover, the Little Engineer management team attended Al Faisal Without borders foundation workshop. We exposed the students who attended to the Little Engineer concepts and to the services we offer.

2014 December 2nd Edition

Cool engineering Break Workshop

For ages 5+

Students will take The Little Engineering courses in a short period of time (one week period) with a discounted price.

Is your birthday in January?

Why not celebrate it with our team. For more information about our scientific birthdays kindly contact us.

November 6,9 2014 ASWAN

The Little Engineer-Airbus initiative was hosted in Aswan Province in collaboration with the Egyptian Ministry of Civil Aviation last November exposing 85 learners of grade 5 and 6 to the world of avionics and the aviation industry. It was a great inspiration for the children, many thanks to all who contributed in this great successful event and in particular to Mr. Mostapha Yousry , Mr. Mohammad Rahma, Miss. Lamia Sami for the exceptional hospitalization during our stay in Aswan. More is uploaded on our YouTube channel: The Little Engineer HQ.

November 27,28 2014 RABAT

Similarly The Little Engineer-Airbus initiative Landed in Morocco at Al Rabat in collaboration with AFITS, the African Institute of Aviation safety to expose 87 learners to our inspiring workshop. Special thanks to Mrs. Zinab El Idrissy and Habib El Mrabt for the great attention and amazing hospitality . More is uploaded on our YouTube channel: The Little Engineer HQ.

WORKSHOPS IN SCHOOLS

In collaboration with LAU Alumni Association South Lebanon Chapter, *The Little Engineer* celebrated the independence day in Saïda & delivered a workshop in Houssam Eddine Hariri High School on November 22, 2014 , exposing 150 students to different levels of robotic Workshops . check the video covering this event on YouTube : THE Little Engineer HQ.

School visits to our centers

In December 2014, we hosted BMS learners of grades 4, 5, 6 and Hariri High School II learners of Grade 5 in our Msaitbeh Center exposing them to the workshop that fits their age. You can see how they were fully engaged by checking their photos on our Facebook Fan Page : <https://www.facebook.com/TheLittleEngineer> & by visiting their albums under photo. We strongly believe that such workshop is an eye opener for an activity that could be considered in their life to challenge their brain, enhance critical thinking and build skills for the future.

To book a session contact us on 961 1 304 605 we will connect you with the educational consultant for your area.
